

QUICK START GUIDE

drive HD™
Record your ride

Safe Driving
Motorists, as well as operators of emergency or service vehicles, are expected to exercise all due caution while using this product, and to obey all applicable traffic laws.

Security of Your Vehicle
Before leaving your vehicle, always remember to conceal this device in order to reduce the possibility of break-in and theft.

Privacy
This device may not be used to violate the privacy rights of others. In no way will Cobra Electronics or its subsidiaries be responsible for inappropriate use of this product. It is the sole responsibility of the buyer to consult legal counsel for the interpretation of any laws applicable to the area of intended use of this product.

CONTROLS & CONNECTIONS

INSTALLATION

1

MOUNT

Attach the mount to the camera using the screw and plastic nut. Press the lever to secure the suction cup mount to your vehicle's windshield.

2

POWER

Plug the unit into your vehicle's cigarette lighter plug.

3

DRIVE!

When power is applied the unit will automatically turn on and start recording.

Press to stop or start recording.

Press to lock the current file so that it won't be recorded over.

Press menu and then select to change languages.

COMPUTER CONNECTION

To view videos on a computer, connect the unit using the included USB to mini-USB cable.

The camera appears as a removable disk and files can be accessed in the DCIM folder.

To view GPS, speed, acceleration, and heading information you must view videos using **Drive HD™ Player**, which can be downloaded free at www.cobra.com/dashcamsoftware.

NOTE: Videos from this device will not play on **Quicktime®**. Visit www.cobra.com/dashcamsoftware for links to compatible 3rd party players.

STORAGE

An 8GB Class 4 Micro SD card comes installed in this unit, but it can support up to a 32GB card.

When the card is full it will delete the oldest clips to make room for new footage.

For full product manuals and additional language support, visit www.cobra.com
