

## Q3

### Communication System for Bikers Bike-to-Bike Intercom up to 1 km range

The scala rider® Q3 makes riding in small groups really fun! With its stylish and aerodynamic design, it offers intercom toggling among 4 riders at a range of up to 1 km.<sup>(1)</sup>

The Q3 will simultaneously connect to mobile phones, A2DP (Bluetooth® stereo) music players, and GPS navigation devices. It also has a built-in FM radio with RDS and a cable is provided to connect to older MP3 players.

Click-to-Link® technology, allows Q3 users to join the social roadside revolution and the several hundred-thousand scala riders who already enjoy spontaneous intercom with each other without the need for advance pairing.

While riding with a passenger, the Q3 will allow you to share your favourite music with Music-Sharing™ technology, so you can both enjoy the same tunes as you get around.

To ensure that your scala rider remains at the forefront of technology, you can update its software online via your PC or Mac\*. When on the road, you can use the *Cardo SmartSet* app (available free) to easily modify your settings.

The scala rider Q3 comes equipped with interchangeable hybrid and cored microphones providing the ultimate solution for virtually any helmet.

**Q3 multiSet** Also available  
2 pre-paired Q3 units in one package

#### Connectivity Options

Intercom with 3 other Riders

With 2 Bluetooth channels, the scala rider offers parallel connectivity to:

- 2 Mobile Phones
- GPS device
- A2DP-enabled MP3 Player

#### Priority Management

No need to manually disconnect from intercom or music to receive incoming phone calls or GPS instructions!

- *Cardo SmartSet* app for on-the-go setting customization

(1) Range dependant upon environment

(2) Minimum Requirement: Windows® XP/Mac OS X 10.5
